

The Home Instead Senior Care® network's Senior Emergency Kit<sup>SM</sup> can help ensure that family caregivers like you have fast and easy access to important information about loved ones in case of an emergency call.

This resource was developed with the assistance of [Humana Points of Caregiving®](#). It is designed to help family caregivers gather details about a senior's doctors, pharmacy and insurance company, medications and dosages, as well as allergies, power of attorney and other important information.

This toolkit will provide you with all the important information you need in a centrally located file so you are ready for a crisis, day or night
